

Can I access Moodle sites from previous years to use as resources?

Yes. Simply type the year and semester correctly into the URL and the related Moodle semester should appear.

Ex: If I wanted to check out the Spring semester from 2011, I would type www.moodle11sp.sbu.edu

11 for 2011

sp for Spring

fa for Fall

Other example: Fall 2012 semester: www.moodle12fa.sbu.edu
